Insurance OD Premium (IDV value Rs 5,50,000)	Rs 6750	<div>BUY NOW</div>															

## Notes from the mechanic

“ Road test was good, power and performance was good also. Log book history is up to date and stamped in back of book. Spare keys also. Interior of vehicle is in good condition no major stains or marks. As pictured. Front and rear seats in good condition. Would just advise getting vehicle detailed. Exterior of vehicle is in good condition no major accident damage or marks. Just in a unclean condition been sitting for a few weeks in the garage. Being a black car easier to spot smaller scratches and marks. There were a few minor scratch marks around the rear boot area. But overall in good condition just would advise also a good detail and clean and polish to get minor scratches and marks out. ”
